

1. The *IFRS for SMEs* Standard published July 2009, updated May 2015

- (a) Good Financial Reporting Made Simple.
- (b) 240 pages in length, including accompanying guidance in non-mandatory appendices. Approximately 10 per cent of the size of the full IFRS Standards¹.
- (c) is built on a foundation of full IFRS Standards. Simplifications from full IFRS Standards are based on:
 - (i) user needs primarily for information about short-term cash flows, liquidity and solvency (rather than longer-term forecasts of earnings and share prices); and
 - (ii) cost-benefit considerations.
- (d) constitutes a stand-alone Standard.
- (e) provides simplifications compared to full IFRS Standards:
 - (i) some topics in full IFRS Standards are omitted because they are not relevant to typical SMEs;
 - (ii) many of the recognition and measurement principles in full IFRS Standards are simplified;
 - (iii) substantially fewer disclosures than in the full IFRS Standards;
 - (iv) redrafting is simplified; and
 - (v) revisions to the *IFRS for SMEs* Standard are no more frequent than once every three years.

2. 2015 Amendments to the *IFRS for SMEs* Standard

- (a) in May 2015 the Board completed its first comprehensive review of the *IFRS for SMEs* Standard.
- (b) after consulting widely with constituents, and taking into account the fact that the *IFRS for SMEs* Standard is still a relatively new Standard, the Board issued only limited amendments. Those amendments are effective on 1 January 2017 with early application permitted.

¹ The *IFRS for SMEs* Standard and full IFRS Standards have been compared excluding their Basis for Conclusions and excluding the illustrative financial statements accompanying the *IFRS for SMEs* Standard.

- (c) the most significant amendments relating to transactions commonly encountered by SMEs are:
 - (i) permitting SMEs to revalue property, plant and equipment; and
 - (ii) aligning the main recognition and measurement requirements for deferred income tax with full IFRS Standards.
- (d) other notable amendments include:
 - (i) exemptions from the following requirements when application would cause undue cost or effort:
 - (1) measurement of investments in equity instruments at fair value;
 - (2) recognising intangible assets separately in a business combination;
 - (3) offsetting income tax assets and liabilities; and
 - (4) measuring the liability to pay a non-cash dividend at the fair value of the assets to be distributed.

Additional guidance has been included to clarify that an entity must carefully weigh the expected effects of applying the exemption on the users of its financial statements against the cost or effort of complying with the requirement. An entity must also disclose its reasoning for using any of the undue cost or effort exemptions.
 - (ii) the option to use the equity method for investments in subsidiaries, associates and jointly controlled entities in separate financial statements.
 - (iii) the modification of the criteria for basic debt instruments to ensure most simple loans qualify for amortised cost measurement.
 - (iv) the requirement that if the useful life of goodwill or another intangible asset cannot be established reliably, management's best estimate is used, but must not exceed 10 years. Previously a default 10-year life was presumed.
 - (v) the requirement that investment property measured at cost less accumulated depreciation and impairment is presented separately on the face of the statement of financial position.
 - (vi) additional guidance on accounting for exploration and evaluation assets.
 - (vii) three options and two areas of guidance for first-time adopters of the *IFRS for SMEs* Standard based on amendments to full IFRS Standards issued since the *IFRS for SMEs* Standard was published.
- (e) the majority of the amendments clarify existing requirements or add supporting guidance, rather than change the underlying requirements. So, in general, the amendments are expected to improve an SME's understanding of the requirements, without having a significant effect on its financial reporting practices and financial statements.
- (f) access more information on the initial comprehensive review [here](#).

3. Future reviews of the *IFRS for SMEs* Standard

- (a) the Board has discussed the following as a tentative approach for future reviews of the *IFRS for SMEs* Standard:
 - (i) a comprehensive review of the *IFRS for SMEs* Standard will commence approximately two years after the effective date of the amendments to the *IFRS for SMEs* Standard resulting from a previous comprehensive review. This would allow time for SMEs to apply the amendments and for interested parties to identify and comment on any implementation issues or unintended consequences that result from those amendments. It is expected that comprehensive reviews would begin with the issuance of a Request for Information.
 - (ii) between comprehensive reviews, the Board, with input from the SME Implementation Group (SMEIG), the Board's advisory body on the *IFRS for SMEs* Standard, would decide whether there is a need for an interim review of the *IFRS for SMEs* Standard. The purpose of an interim review would be to consider any new and revised full IFRS Standards not yet incorporated and any urgent amendments that have been identified.
 - (iii) this process would mean that amendments to the *IFRS for SMEs* Standard would not typically be expected to be more frequent than approximately once every three years to provide SMEs with a stable platform.
- (b) at its meeting in October 2016, the Board considered feedback from the SME Implementation Group and, consistent with this feedback, decided not to perform an interim review of the *IFRS for SMEs* Standard in advance of the next comprehensive review. The next comprehensive review of the *IFRS for SMEs* Standard is expected to start in early 2019.

8. Procedure for submitting implementation issues to the IFRS Foundation staff

- (a) small companies and other interested parties can submit implementation issues on the *IFRS for SMEs* Standard for consideration. Submitted issues will be dealt with by staff in one of two ways:
 - (i) staff will refer the issue for consideration by the SME Implementation Group (SMEIG) if they think the issue is likely to meet the criteria in paragraph 15 of the *Terms of Reference and Operating Procedures for the SMEIG*. For these issues the SMEIG will then consider whether to develop non-mandatory implementation guidance to address the issue in the form of questions and answers (Q&As).
 - (ii) other issues will be considered by the staff when updating our educational material or held for consideration during the next periodic review of the *IFRS for SMEs* Standard as applicable.

9. SME Implementation Group (SMEIG)

- (a) the SME Implementation Group (SMEIG) was created in 2010 by IFRS Foundation Trustees after public call for nominations.
- (b) currently there are 27 SMEIG members plus the Chair (Board member Darrel Scott).
- (c) the SMEIG has two main responsibilities:
 - (i) make recommendations to the Board on the need for modifications to the *IFRS for SMEs* Standard; and
 - (ii) provide guidance on implementing the *IFRS for SMEs* Standard via non-mandatory Q&As.
- (d) the SMEIG issues non-mandatory guidance in the form of Q&As. Q&As are intended to help SMEs and other *IFRS for SMEs* Standard users to think about specific accounting questions and are subject to the normal due process for educational material. Board approval is not required. There are no current Q&As.
 - (i) seven final Q&As were completed and posted during 2011 and 2012. These were deleted on issue of the 2015 amendments to the *IFRS for SMEs* Standard:

- (1) some content was included into the *IFRS for SMEs* Standard (making it mandatory).
 - (2) where relevant, remaining content was incorporated in IFRS Foundation educational material (remains non-mandatory).
- (ii) no Q&As are currently under development by the SMEIG.
